EXPERIENCE

Full-Stack Web Development Trainee | Orange Coding Academy, Amman/Jordan

01/2025 – Present

- Front-end: Developed responsive and interactive user interfaces using HTML, CSS, JavaScript, , enhancing the user experience with clean UI/UX principles
- Back-end: Built and maintained web applications using PHP MVC, and Laravel , Web API. Ensured efficient data management and scalability by consuming APIs and integrating back-end services
- Database: Managed and optimized SQL databases. Created and executed queries for efficient data retrieval, and ensured database performance
- Project Work: Delivered **8** full-stack web projects, applying skills to real-world scenarios. Developed scalable, maintainable, and high-performing applications
- Collaboration: Worked closely with teams to implement project requirements and ensure the seamless integration of front-end and back-end systems.

Content Moderator | Extensya company, Amman/Jordan

09/2024 - 01/2025

- Gained strong analytical skills by assessing and moderating diverse types of online content.

- Developed the ability to make quick and accurate decisions under pressure.
- Improved communication and teamwork skills through collaboration with cross-functional moderation teams.
- Built resilience and emotional intelligence by handling sensitive and challenging content.
- Acquired a deep understanding of digital safety, community guidelines, and content policies.
- Enhanced attention to detail and consistency in enforcing platform standards.

PROJECT

1. HR Management System – Full Stack (Solo Project, Orange Coding Academy)

- Developed a complete company management system independently.

- Features: attendance, tasks, projects, clients, salaries, and user roles.

- Technologies: Laravel, MySQL, HTML, CSS, JavaScript.

- Used Trello for planning, time management, and task tracking.

- Fully functional and demonstrates end-to-end full stack development..(GitHub)

2. Grow – Volunteering Platform (Team Project , Orange Coding Academy)

- A platform for volunteering events, donations, and registration.

- Focused on backend using Laravel; supported frontend with HTML, CSS, JS.

- Used Trello for team coordination and time management. (GitHub)

3. Simple Social Media App – Full Stack (Team Project , Orange Coding Academy)

- A basic social media app for posting and interaction.

- Developed using React (frontend) and Laravel (backend).

- Worked on both frontend and backend tasks.

- Trello used for organizing tasks and collaboration(GitHub)

EDUCATION

Bachelor Degree in Management Information System | Al-Albayt University

10/2020 – 07/2024
